Vadodara 71. The reviews for this restaurant are mixed. Some customers were highly disappointed with the biryani, calling it a disaster and not worth the money. They criticized the lack of flavor and masala, as well as the dryness of the chicken. However, others enjoyed their experience at the restaurant, praising the cozy atmosphere, simple interior, and good biryanis with no extra spices. They recommended ordering the biryani, which had a nice taste and was worth trying. Overall, it seems that the quality of the food at this restaurant may vary, but it could be worth a visit for those looking for a decent biryani experience.
