The **menu of Kellys Bar and Grill** from Sydney includes **158** menus. On average the *menus or drinks on the menu* cost approximately A\$20. You can view the categories on the menu below. The reviews for the restaurant are mixed. One customer was highly disappointed with the quality of the food they received after spending \$100 on a meal. Another customer felt that the [vegetarian](#) platter they received was overpriced and lacked flavor.

Another patron complained about the poor quality of the grilled barramundi and the dry burger patty they ordered. However, the restaurant seems to excel in cooking steak, as multiple reviewers praised the quality and consistency of the steak dishes. Overall, the restaurant seems to have some hit or miss dishes, but those looking for a good steak may find this place worth a visit.
