On this site, you can find the **complete [menu](#) of Pepe's Mexican Grill** from Christchurch. Currently, there are **18** courses and drinks up for grabs. At a popular Mexican restaurant in Christchurch, experiences have become increasingly mixed. While some patrons rave about the generous portions and fresh ingredients, particularly the vegan burrito options, others express disappointment over rude service and incorrect orders. One standout feature is the attentive staff who accommodate dietary preferences, such as offering free guacamole for vegan meals. However, issues like missing ingredients and unhelpful service from certain staff members have tainted the dining experience for many. Overall, while the flavors and value attract a loyal following, the inconsistency in service remains a significant concern.
